WK PHONE

ADDRESS

DATE OF REQUEST: _____

1. I understand that this is a **request** for a satellite dish permit and under no circumstances will I start the installation before I receive the permit.
2. **I understand that the satellite dish must be professionally installed and that before I return this request I am required to obtain professional assistance in selecting a location for the dish. I also understand that under no circumstances will I be allowed to attach the dish or any associated hardware to the building, or any other government structure, without written permission from the family housing office.**
3. I understand that satellite dishes are limited to 29" in diameter.
4. I understand that this permit is canceled every thirty (30) days from its approval date, if the installation is not complete. Any deviation from the approved plans voids this permit.
5. I agree that all costs incidental to this installation will be borne by me, and that I will be assessed for any damages to government property. I understand that I will be required to remove the dish and all associated hardware prior to my vacating the unit, or temporarily remove it to permit maintenance or construction workers access to the area. In vacating quarters, my yard and quarters will be returned to its original condition at my own expense.
6. I comply with CCO P11101.12I (Section 3006) Housing Regulations, for the installation of my dish, and I understand that any deviation from these specifications can result in condemnation of the installation at no cost to the government. I will then be required to remove the satellite dish and all associated hardware at my expense.
7. **Sketch/Plans** Your installer is to provide family housing with a sketch or a plan
8. **I have read and understand all of the above instructions. I also understand that failure to follow the above instructions will result my request being denied or unnecessarily delayed.**
